# Test Document

## Introduction

This is a test document to verify the PDF enhancements.

## Code Example

Here's some Python code:

```
1 ■ def hello_world():
2 ■     print("&quot;Hello, World!&quot;")
3 ■     return 42
4 ■
5 ■ def fibonacci(n):
6 ■     if n &lt;= 1:
7 ■         return n
8 ■     return fibonacci(n-1) + fibonacci(n-2)
9 ■
10 ■ # Test the functions
11 ■ result = hello_world()
12 ■ print(f"&quot;Result: {result}&quot;")
```

## Another Section

This section has more content to test the reading time calculation.

## Subsection 1

Some content here.

## Subsection 2

More content to make the document longer and test the TOC depth filtering.

## Conclusion

This concludes our test document.
